RETAIL LIGHTING
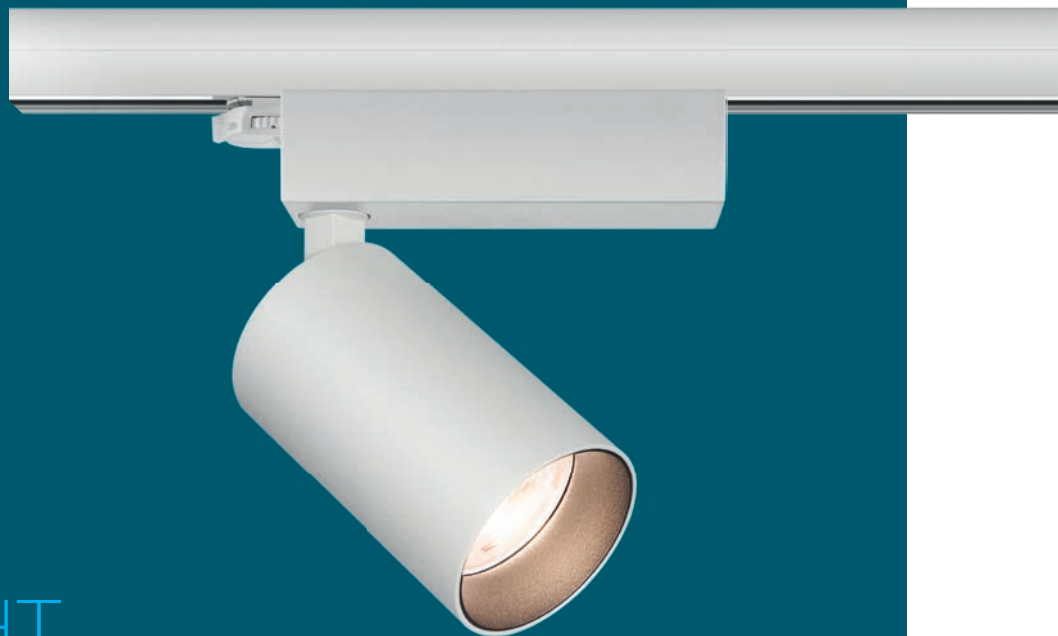

LIGHTING FOR THE RETAIL BUSINESS.

Light is emotion and determines the atmosphere in a room. Lighting is an excellent way to generate more revenue and strengthen the image of your company. Whether it's a restaurant, a shop or an office, the right lighting is essential for the emotion generated by your customers.

No less important is the way a room is illuminated. Too often retailers are missing the mark by highlighting their products in the wrong way. Proper color reproduction is essential to bring space and your products to the attention of your customers.

We are therefore happy to advise you on the possibilities for the right lighting, but also the right highlighting of your products. We like to work closely with you to create a custom lighting plan that fully matches the space and of course your wishes.

INDEX

1

BUILT-IN

At Keylight, we always use energy-efficient
LED lighting for your shop.

LIGHTING AS A
REVENUE-ENHANCING TOOL.

Our collection of recessed luminaires is composed of innovative and high-quality products. The luminaires are ideal as basic lighting for your shop. Due to the high light output and the wide variety of colour temperatures, the luminaires are able to put any interior in the perfect light. In this way, you not only create a unique experience for your customer, but also increase sales. The luminaires can be used in almost any kind of room.

BLACK
&GOLD
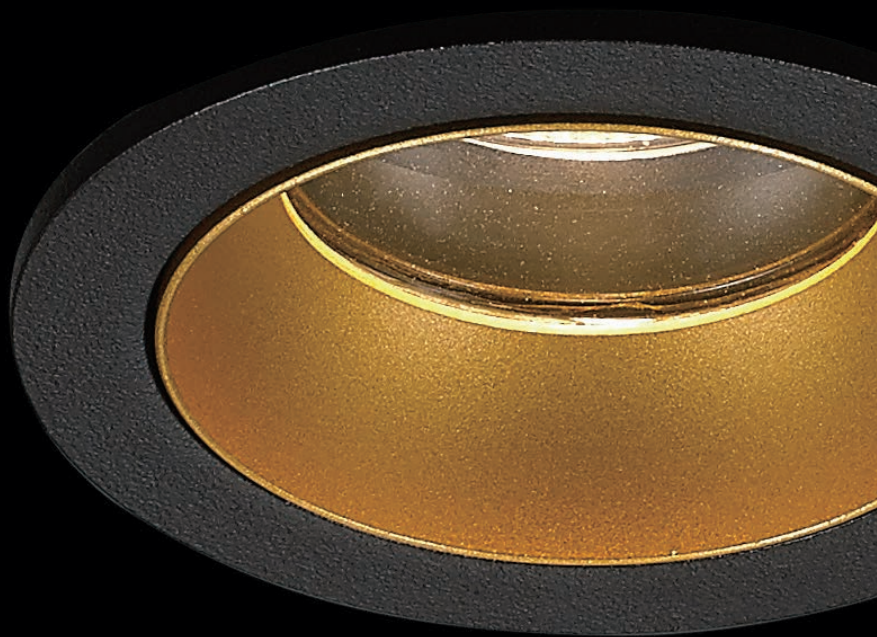

The innovative Black & Gold series offers a collection of functional luminaires with a stylish, warm and luxurious look. The use of gold reflector rings gives every interior an extra warm and pleasant atmosphere. The luminaires are equipped with a dimmable LED module with a very high efficiency so that you can create the ideal light in any room.

TRACK LIGHTS

Flexibly applicable all-rounders for every sector. Of course we are talking about our rail spots.

THE RIGHT LIGHTING STIMULATES ATTENTION OF YOUR AUDIENCE.

Railspots are the ideal candidate for your business. You want to highlight your products in the most effective way possible and present them to your customers. Our rail spotlights are equipped with the latest technologies and innovations and are available for both the food and non-food industries. For example, if you are looking for a spotlight on your make meat and fish products as attractive as possible, we can provide the spotlights with a custom LED module that brings the red colors even further out and make your products more appealing to the customer. We also offer tailor-made solutions for bakeries and vegetable shops.

You also want the freedom to relocate the lighting when you want to change a display in your store. Then rail spots are perfectly suitable for your company. Because the spotlights can be used flexibly, you can switch positions at any time. Simplicity is paramount here. With just a single click you can detach the spotlight and reposition it in a different place.

PENDANT

Modern design, functionality and technology combined into a real powerhouse.

CREATE AWARENESS WITH OUR EYECATCHERS.

With our pendant luminaires you have real powerhouses at you disposal. These heavy duty luminaires provide an optimal working environment due to their high light output, colour consistency and high CRI value. The luminaires can be used, for example, as a highlight in your shop, but can also be considered as a real eyecatcher. Whether you need a high light output or soft and elegant lighting, the dimmable driver allows you to adjust the lighting to the brightness level which is ideal for the setting. In addition, the luminaires are available in almost every RAL color.

KEYLIGHT FOR THE HOSPITALITY SECTOR

In a café, hotel or restaurant, lighting plays an important role. It determines the atmosphere and thus whether guests want to stay or leave. It should also provide businesses with a return on investment by means of savings on the energy bill. This is why Keylight offers businesses a choice of different types of LED lighting. This is energy-efficient and eco-friendly lighting.
The lighting is available in all kinds and sizes: pendant lights, recessed spotlights, wall lights and bar lights. Everything you need to provide your café, hotel or restaurant with attractive lighting. Before purchasing lamps, it is best to have Keylight develop a efficient lighting plan. You will be able to gain insight into the possibilities in the area of hospitality lighting and the benefits that this brings.

WALL

Besides good ambient lighting, accent lighting is also a must for your shop.

THAT LITTLE BIT OF EXTRA ACCENT.

The luminaires from our range of wall lights are ideally suitable to add that little bit of extra accent and ambience to the walls in your business. In combination with a sleek and elegant built-in or surface-mounted luminaire, you can place them in the fitting rooms, behind the checkout or next to your shop's entrance.

MURIO WALL LUMINAIRES

The wall-mounted luminaires in the Murio series by Remy Meijers are designed to be both straightforward and elegant. These sophisticated luminaires feel at home in almost any environment. They are ideal for highlighting walls in your shop. The luminaire is equipped with two durable LED chips and are finished with a robust structure coating. The luminaires are finished with a robust structural coating so that it can withstand bumps. No less important; the luminaires are available in many color combinations.

LEDSTRIPS
& PROFILES

*With LED strips you can add extra accent to
your store in an original way.*

GIVE ACCENT TO YOUR SHOP OR RESTAURANT

Are you looking for a cool and original solution to illuminate your shop, restaurant or home and not just with pendant lights or floor lamps? With LED strips, you can easily bring more feel to your working and living environment. This modern form of accent lighting can be used endlessly. How about highlighting the counter in your shop, or worktop in the kitchen? Or maybe even under the stairs so you always have good visibility when you walk up the stairs. Similarly, this type of accent lighting is also highly applicable in hospitality venues, such as restaurants and bars. The possibilities of LED strips are endless: the result is always just as special.

EMERGENCY

We like to take the safety measures. This gives you, as a customer, a feeling of certainty.

BETTER SAFE THAN SORRY.

You do not hope it will happen: a power outage occurs unexpectedly. It is dark and you have no idea where the exit is located. In such a situation, you would have liked to have had emergency lighting in the shop. Then you would have found the exit in no time. Our philosophy is therefore also: emergency lighting is a necessary asset.

In almost every project we include emergency lighting in the lighting plan. It is quite nice if you don't have to buy it when the damage is already done. In the event of unexpected power outages, you want to be sure that you or your customers will be able to find their way out. That is why we say:' Better safe than sorry'.

IT'S ALL ABOUT THE CUSTOMER JOURNEY

>

IN RETAIL LIGHTING, IT IS IMPORTANT TO REALISE THAT THE CUSTOMER'S JOURNEY IS THE FIRST PRIORITY.

In retail lighting it is important to realise that the customer's journey is central. The right lighting stimulates the attention of your target group. It makes your shop stand out and products become more attractive when shopping. As soon as people step into your shop, they really feel at ease. This encourages them to buy articles or products from you. Retail lighting from Keylight therefore makes an important contribution to successful sales and can increase sales. Good advice is important. At Keylight we know everything about what your business needs. We offer our clients a versatile range of retail lighting solutions for your store. You can choose from numerous top brands. In addition, we always focus on energy-efficient LED lighting for your shop.
